

# BORO-PRO®

## GUARANTEED ANALYSIS

**Boron (B)** ..... **10.00%**

**Derived from:** Boric Acid

### ALSO CONTAINS NON-PLANT FOOD INGREDIENT:

10.0% Organic Matter (derived from leonardite)

## DIRECTIONS FOR USE

• Shake well before use. • Designed to be applied by both soil and/or foliar application. • BORO-PRO® supplies boron to turf and ornamentals and should be applied when tissue and soil analysis identifies the need and proper rate of application for this product. • Best results will be obtained when application is concentrated in the active root zone or on the leaf surface. • Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. • If compatibility is in question, jar test a small quantity. • Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. • Do not apply this product foliarly in concentrations greater than 5%. • For maximum results, apply in the early morning or in the evening when air temperatures are optimum for foliar application. • Do not apply HUMA GRO® TURF nutrients during the hottest time of the day or to turf or ornamentals under drought or flood stress. • Application timing, intervals and rates may vary according to turf and ornamental requirements, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants. • Applications can be made as often as every 7 to 10 days as needed. • Consult your local HUMA GRO® TURF Representative or other turf or ornamental specialist for plant-specific recommendations. • Do not store this product below 50°F (10°C) or above 90°F (30°C).

**This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by turf and ornamentals.**

### STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse container when empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

## METHOD OF APPLICATION

**SUGGESTED RATE**  
Turf & Sod / Nursery & Ornamentals

Foliar broadcast or fertigated through sprinkler system	up to 1 oz/1,000 ft <sup>2</sup> 27 mL/100m <sup>2</sup>	up to 1 qt/ac 2.5 L/ha
Soil applied through drip tape or micro sprinklers	up to 1 pint / up to 1 quart	up to 1 qt/ac 2.5 L/ha
Soil broadcast spray incorporated	up to 1.5 oz/1,000 ft <sup>2</sup> 53 mL/100m <sup>2</sup>	up to 2 qt/ac 5 L/ha
